# **DOUGLAS B. BOEBINGER, PMP**

## **COURSES FACILITATED (CONT):**

### Company 'C'

- Microsoft Project White Belt (2 day course)
- Microsoft Project Orange Belt (2 day course)
- Project Management Certificate Program (PMP Prep 7 day course)
- Program Management: Integrating Projects and Processes (2 day course)
- Stakeholder Relationship Skills (2 day course)
- Managing Multiple Projects (2 day course)

### Company 'D'

- Project Scope Management (1 day course)
- Project Risk Management (1 day course)
- Project Time Management (1 day course)
- Project Communications Management (1 day course)
- Negotiation Skills (1 day course)
- Basics of Microsoft Project (1 day course)
- Advanced Microsoft Project (1 day course)

### Company 'E'

- Project Management Principles and Practices (2 day course)
- Project Management with Microsoft Project (2 day course)
- Comprehensive Microsoft Project (3 day course)

### Company 'F'

- PMP Boot Camp (4 day / 35 hour course)
- Basic Microsoft Project (1 day course)
- Advanced Microsoft Project (1 day course)

### Company 'G'

- A Systems Approach to Project Management (2 day course)

### Company 'H'

- Advanced Risk Management (2 day course)

### Company 'I'

- Core Project Management (2 day course)

### Company 'J'

- Personal and Project Time Management (2 day course)
- Project Management Fundamentals, Part 1 (2 day course)
- Project Management Fundamentals, Part 2 (2 day course)
- 

## **COURSES EVALUATION COMMENTS:**

- Awarded the outstanding project management instructor award two years in a row (2009 & 2010)
- Masters Certificate in Project Management
- Award for Training Excellence (awarded only to trainers with consistently excellent evaluations over the year)

“All aspects of this relationship have been beyond expectations. The program that Douglas presents for us is excellent,” says David Barrett, National Program Director for the Project Management Centre of Excellence at the Schulich Executive Education Centre. Douglas’ program has “... settled in as one of our top performing programs...he is an excellent communicator, a fabulous instructor and a true professional” says Barrett.

These are just some examples of comments received from students in courses led by Doug Boebinger, PMP

- Dan Cahalan: Doug was an excellent instructor. He was clear and informative
- Michael Marley: One of the best instructors I have met. Very knowledgeable and kept the course moving along. Learned a lot.
- Danielle Taurmina: The instructor was very knowledgeable and did an excellent job the entire week

# **DOUGLAS B. BOEBINGER, PMP**

- Barry McLean: Instructor was great.
- Ginna Primavera: Instructor was quite knowledgeable with PMP
- Mike Gustafson: The instructor was one of the best I ever had
- Teresa Chambers: Overall I think Doug Boebinger was an excellent instructor, he kept me motivated, he didn't just read the slides he had an applicable real world experience for each process area and that helped put everything into perspective.
- Holly Rushford: The instructor was excellent!

## **CORPORATE WORK EXPERIENCE:**

*August 1997 – Present: **Independent Project Management Consultant and Trainer, Plymouth, MI***

I specialize in process development, project management implementation & support, and project management training. I created the MAPD® Strategy which is a revolutionary new project/process planning and execution strategy specifically designed for multi-team environments. I have also assembled multiple project management training courses. I have provided consulting and training services to Fortune 500 companies, as well as the largest private university in the United States, in order to prepare its people and projects to meet today's business needs. I am a Registered Education Provider (REP®) with the Project Management Institute (PMI®).

Borg Warner	General Motors	Stephenson Disaster Mgmt Institute
Breed Technologies	General Physics	TAC Automotive
Brose Automotive	GKN Automotive	Takata
CDI Information Services	Grupo Antolin	Total Petrochemicals
CIBER	Lear	Tower
Comerica Bank	Livernois Engineering	TRW
Continental Automotive	Manpower Technical	University of Phoenix
Contract Professionals, Inc.	MMR Constructors Inc.	Vari-Form
Cosworth Technology Inc.	MSX International	Visteon
DaimlerChrysler	National Tech Team	Yazaki
Decision Consultants Inc.	Optimal CAE, Inc.	

*1993 - 1997*

Specialize in applying project management theories and methodologies in the automotive, construction and utility industries.

**Senior Project Management Consultant / Team Leader:** (July 1993 - July 1997)

Lead project management and process development consultant within Ford Motor Company's Core and Advanced Powertrain Engineering implementing process development, project management methods, and scheduling techniques for the planning, design and manufacturing of new powertrains.

### **Scope of Work/Accomplishments:**

- Led a 150+ person, cross-functional, global Powertrain team through the development of the powertrain aspect of the Ford Product Development System integrated processes at the system, sub-system and major component levels. This effort will result in a 33% reduction in product to market time.
- Member of the Powertrain Program Review Process team where I streamlined the process to increase it clarity.
- Lead advisor to the Ford team developing the strategy for continuous process improvement

## **DOUGLAS B. BOEBINGER, PMP**

- Develop and maintain strategies, methodologies and procedures for Powertrain project management which are the core to the Ford Automotive Operations project management initiative.
- Develop project management process measurables to ensure consistent project management practices throughout Powertrain and to facilitate project management process improvements.
- Serve as a central project management knowledge base to support and guide Powertrain project management efforts including the collection, analysis and distribution of program and project management lessons learned.
- Develop and support project management database applications used world-wide by Ford Powertrain.
- Develop, maintain and conduct project management theory training course completed by over 300 people from the engineer level to Ford's Powertrain Director.
- Develop and conducted Netronic Granada Professional and Personal software training.
- Recipient of the 1995 Ford Advanced Vehicle Technology Customer-Driven Quality Award for results accomplished by the Project Management Team.

### **1992 - 1993 Plan Tech, Inc., Troy, MI**

Project management consulting company specializing in the automotive industry.

**Manager, Project Planning:** (January 1993 to July 1993)

**Senior Planner/Scheduling Consultant:** (July 1992 - December 1992)

On site consultant to Ford Motor Company's Electronics Division leading the implementation of project management methods to the development, design and manufacturing of new electronics components.

#### **Scope of Work/Accomplishments:**

- Account Manager of a four person task force to implement project management and support the Process Leaders in utilizing project management and scheduling techniques for their projects.
- Developed project management bookshelving and archiving techniques to increase the efficiency of developing project work plans.
- Developed and lead training meetings on various aspects of performing project management, utilizing software, etc.

### **1988 - 1992**

\$45 million structural steel fabricator and erector with expertise in building renovations and additions.

**Operations Control Manager:** (September 1991 to June 1992)

Proposed, developed, and pioneered plan to execute construction projects using computer-based scheduling software. After system start-up, created, analyzed, and maintained all company project schedules and operational assignments.

#### **Scope of Work/Accomplishments:**

- Completed work-flow analysis of the company's operation strengths and weaknesses.
- Created schedule template methodology to develop and de-bug complicated schedules in short time-frame.
- Developed method to create and analyze various project plans to determine most economical execution strategies.
- Devised simple, effective, weekly project schedule update system which allowed for continuous analysis of current project status through comparison to original plan.

**Project Manager:** (July, 1988 to August, 1991)

Managed execution of all functional areas of major construction projects, as well as coordinated contract specifics with owners/clients.

#### **Scope of Work/Accomplishments:**

- Coordinated 25 structural steel construction projects of varying degrees of complexity with full profit/loss responsibility.
- Initiated and oversaw improvements to company project financial statements, increasing accuracy of final project cost predictions.
- Performed company operational reviews and suggested later-implemented profitability and performance improvements.

### **Summer 1984, 1985 – 1988 Geupel DeMars, Inc., Indianapolis, IN**

Construction Manager and General Contractor firm specializing in commercial construction services.

# **DOUGLAS B. BOEBINGER, PMP**

**Project Engineer:** Managed all aspects of the on-site construction activities, sub-contractors and the construction process for two major projects.

**Scope of Work/Accomplishments:**

- Wrote detailed scopes of work for bid documents which resulted in elimination of contractor-based change orders.
- Review of contract documents prior to bid to achieve more complete and accurate lump sum bids from contractors.
- Improved change order and submittal processes to decrease overall processing time.

*Summers 1981 - 1983*     **Charles Pankow, Inc., Los Angeles, CA**

General contractor specializing in commercial and residential high-rise concrete buildings.

**Assistant Project Engineer/Summer Intern:** Member of the on-site construction management staff on projects in Honolulu, Pasadena, and West Los Angeles.

## **ACADEMIC WORK EXPERIENCE:**

*January, 2008 - Present*     **University of Toledo**

Instructor in the Executive Center for Global Competitiveness teaching Project Management courses to their customers

*July, 2007 - Present*     **York University – Schulich Executive Education Centre**

Instructor for the Masters Certificate in Project Management

*May, 2010 - 2011*     **Oakland University – Continuing Education Department**

Instructor in the Executive Center for Global Competitiveness teaching Project Management courses to their customers

*2009*     **University of Michigan – Dearborn**

Instructor in the Engineering Professional Development department teaching a Project Management Professional Preparation courser for their customers

*August, 2006 – December, 2006*     **Colorado Christian University**

Adjunct Project Management Instructor teaching MGT 270 “Project Management Fundamentals”

*May, 2006 – May, 2007*     **Colorado Technical University**

Adjunct Project Management Instructor teaching MPM 420 “Managing Project Risk & Opportunities”

*2004 – December, 2006*     **Cleary University, Ann Arbor & Howell, MI**

Nationally recognized private university in business education.

**Project Management Department Chair** (July, 2004 – February, 2006)

**Project Management Assistant Professor** (July, 2004 – May, 2007):

I designed and developed the seven project management core courses for the new Bachelor’s degree in Project Management based on the PMI Project Management Body of Knowledge® (PMBOK®).

*1995 - 1999*     **University of Phoenix, Southfield, MI**

Largest private university specializing in business management undergraduate and graduate degree programs.

**Adjunct Faculty Instructor:** (December 1995 - 1999)

I developed, maintained and instructed the “Project Management Professional Review Workshop” course taught at Ford Motor Company. I was a member of the team which developed the Bachelor of Science Project Management degree taught at all their campuses nationwide. My role was to perform the final review of the curriculum versus the PMI PMBOK.

# ***DOUGLAS B. BOEBINGER, PMP***

## **EDUCATION:**

Purdue University, West Lafayette, IN

- Master of Science Civil Engineering - Construction, 1985 (Emphasis in Business & Project Management)
- Bachelor of Science Construction Engineering, 1984 (Emphasis in Construction and Business Management)
- Phi Eta Sigma Freshman Honor Society, April, 1981
- Tau Beta Pi Honor Society, December, 1983
- Beta Tau Academic Fraternity – A Construction Engineering Honorary, April, 1984

## **PUBLICATIONS & PRESENTATIONS:**

- August, 2006: Engineering Society of Detroit's Technology Century: So You Think You Are NOT A Project Manager
- November, 2001: Project Management Institute's International Symposium: Team Autonomy vs. Common Process - Solving the Conflict
- September, 1997: Project Management Institute's International Symposium: Process Improvement or Process Re-Arrangement: Will You Know Before It Is Too Late?

## **ORGANIZATIONS:**

- Project Management Institute International
- Michigan Business & Professional Association
- Engineering Society of Detroit

## **COMPUTER SKILLS:**

- MCTS: Managing Projects with Microsoft Office Project 2007 certification from Microsoft
- Trained and proficient on Microsoft Project and the Microsoft Office suite of applications.
- Microsoft Project Blue Belt Certified by the International Institute for Learning (IIL)

## **OTHER ACCOMPLISHMENTS:**

- Boy Scouts of American: Eagle Scout at age 13
- Tae Kwon Do Black Belt
